Tamil Nadu Agriculture Schemes

District-wise Reference Guide

Compiled: 2026-10-13

Coverage: all 38 Tamil Nadu districts. Each entry summarises inspected official district-government sources and retains source dates and links.

This is a prepared reference guide, not an original Government Order or official government publication. It covers selected schemes, services and document links. It is not an exhaustive or uniformly current district scheme catalogue.

Some entries contain only service information or links to documents whose full rules were not extracted. Historical figures remain labelled with their source dates. Missing facts must be reported as not found, rather than inferred.

District lists and official websites are checked against the Lok Bhavan district directory. District spellings are normalised for consistent selection.

Ariyalur

Source: Ariyalur - Agriculture and related services

Source date: Mar 18, 2026 01:12 PM

Coverage: Selected scheme descriptions

The district agriculture page lists Chief Minister Dryland Development Mission, PMKSY micro irrigation, State Agriculture Development Scheme, Kalaignarin All Village Integrated Agriculture Development Programme, PMFBY and PM-KISAN. Schemes are implemented through block Agricultural Extension Centres headed by Assistant Directors of Agriculture. Its scheme descriptions include cluster-based dryland development and village-level convergence. The names listed do not by themselves establish an open application window or an individual entitlement; consult the district office for component-specific rules.

Open official source

Chengalpattu

Source: Chengalpattu - Agriculture and related services

Source date: 17.03.2026

Coverage: Selected scheme descriptions

The department describes subsidised seeds and fertilisers through Agricultural Extension Centres, PMFBY enrolment for notified crops, micro irrigation using drip, sprinkler and raingun systems, and collective farming support for small and marginal farmers. It links an Important Schemes or Programmes PDF and lists district agriculture contacts. The inspected webpage does not give complete component-wise subsidy ceilings or deadlines. Contact the relevant block Agriculture Extension Centre or district Joint Director of Agriculture for the applicable notification.

Open official source

Chennai

Source: Chennai - Agriculture and related services

Source date: Not displayed in inspected extract

Coverage: Services or document links; limited scheme details

The district Tamil e-service page lists agricultural-income and small/marginal-farmer certificates. For the small/marginal-farmer certificate it lists an applicant photo, address proof, Patta-Chitta-Adangal and self-declaration. The displayed workflow proceeds through VAO, Revenue Inspector, Zonal Deputy Tahsildar and Tahsildar. This entry covers certification services relevant to agriculture applications, not a verified catalogue of Chennai-specific farm subsidy schemes. A certificate does not by itself guarantee eligibility for a particular scheme.

Open official source

Coimbatore

Source: Horticulture schemes and application documents - Coimbatore

Source date: 2026-08-27 (page last updated)

Coverage: Selected scheme descriptions

Coimbatore's horticulture page lists MIDH-NHM, NADP, RKVY-Per Drop More Crop, RAD-IFS, SHDS, TNIAMP and PMFBY. Under MIDH protected cultivation it describes 50% polyhouse assistance at Rs.467.50 per square metre and 50% shade-net assistance at Rs.355 per square metre, each with a maximum area of 4,000 square metres per beneficiary. Packhouse support is listed as 50%, capped at Rs.2 lakh.

The page describes application through the Uzhavan app, horticulture portals or submission to the block Assistant Director of Horticulture. Listed documents include an application with photo, original Chitta/Adangal, FMB sketch, Aadhaar, bank-passbook first-page copy, ration-card copy and photographs. For joint patta it calls for co-owner NOC; lessees must provide a registered lease agreement. Cultivation-related components require soil and water test reports. Assistance above Rs.50,000 requires an affidavit.

The page says leases should be at least 10 years for project-based components and RKVY-PDMC. Water-dependent components require assured irrigation. Confirm component availability with the department.

Open official source

Source: Kharif crop-insurance notice - Coimbatore

Source date: 2026-08-03 (notice publication)

Coverage: Selected scheme descriptions

A Coimbatore notice dated 3 August 2026 says PMFBY had been notified for Tamil Nadu's 2026-27 Kharif season. It identifies Agriculture Insurance Company of India Ltd. as the implementing insurer in Coimbatore.

The notice lists Paddy I, Maize I, Sorghum, Black Gram, Green Gram and Horse Gram as notified crops, and asks farmers to enrol early rather than wait until the final date. The webpage does not itself specify the final enrolment date, crop-wise premium or every required document. Do not infer those details or assume the August notice means enrolment remains open on a later date. Consult the linked official notice for the specific crop, season and village.

Open official source

Source: Machinery-subsidy notice - Coimbatore

Source date: 2026-09-11 (notice publication; Tamil source)

Coverage: Selected scheme descriptions

An English summary of Coimbatore's Tamil notice published on 11 September 2026: the district announces 377 subsidised agricultural machines and implements with an aggregate value of Rs.4.30 crore. It describes 50% subsidy for Adi Dravidar, tribal, women, small and marginal farmers, and 40% for other farmers. Additional support is mentioned for eligible categories on specified implements, without giving every rate in the webpage.

The notice says applications can be made through the Uzhavar app from the 1st to 7th and 15th to 21st of each month. Eligible beneficiaries are selected through a computerised draw. This is a dated district announcement; confirm the relevant application cycle and implement-specific ceiling. The summary translates the webpage and is not an official English GO or a complete transcription of its linked PDF.

Open official source

Cuddalore

Source: Cuddalore - Agriculture and related services

Source date: 20.07.2018

Coverage: Selected scheme descriptions

The agriculture page lists NFSM for oilseeds, oil palm, paddy, pulses and other crop groups; NMSA integrated farming; Coconut Development Board support; SMSP certified-seed distribution; dryland development; Tamil Nadu Cotton Cultivation Mission; and TANSEDA seed multiplication. Block Assistant Directors of Agriculture implement department activities. Soil-testing reports are used to issue Soil Health Cards. Some insurance descriptions refer explicitly to 2016-17 and 2018-19; they must not be treated as current insurer or enrolment information.

Open official source

Dharmapuri

Source: Dharmapuri - Agriculture and related services

Source date: 16.12.2022

Coverage: Selected scheme descriptions

The page lists KAVIADP, State Agricultural Development Scheme, NMSA, Chief Minister Dryland Development Mission, Sustainable Cotton Cultivation Mission, PMKSY micro irrigation and PMFBY. It also describes green manuring, organic farming, integrated nutrient management and integrated pest management. Its subsidy tables are labelled 2022-23. One listed micro-irrigation pattern is 100% for small/marginal farmers and 75% for larger farmers. Those figures are historical source descriptions and require current district confirmation before an application.

Open official source

Dindigul

Source: Dindigul - Agriculture and related services

Source date: 29.09.2021

Coverage: Services or document links; limited scheme details

The district Agriculture and Farmers Welfare page links Agriculture Subsidy Details - Hand Book 2016-17. It describes agriculture divisions, extension centres, a soil-testing laboratory and a fertiliser-testing laboratory. The Joint Director of Agriculture heads the district service. The linked handbook is historical: the inspected webpage does not establish present subsidy amounts, eligible beneficiaries or application closing dates. Use the department and block extension services to obtain the current scheme notification.

Open official source

Erode

Source: Erode - Agriculture and related services

Source date: Not displayed in inspected extract

Coverage: Selected scheme descriptions

The department page lists State Agriculture Development Scheme, Nutrition Farming Mission, Tamil Nadu Millet Mission, food and nutrition security programmes, National Mission on Edible Oils, National Mission on Natural Farming and SMAM agricultural mechanisation. Examples in its state-scheme section include summer ploughing support of Rs.800 per acre, green-manure seed support of Rs.1,250 at 50% subsidy, and organic input production-centre support for groups. A full source date was not visible in the inspected extract. Confirm the component, year, allocation and eligibility with the department.

Open official source

Kallakurichi

Source: Kallakurichi - Agriculture and related services

Source date: 2026-08-21

Coverage: Selected scheme descriptions

The district TAHDCO page describes Mannin Magal Thittam for Scheduled Caste and Scheduled Tribe women agricultural labourers to become landowners. It states assistance of 50% of project cost or Rs.5 lakh, whichever is lower, based on land market value; land purchased must not be sold for ten years. Its Fast Track Power Supply section describes 90% government subsidy and 10% beneficiary contribution, subject to the listed category, land, well and connection requirements. Read the complete eligibility section; these are not benefits available automatically to every farmer.

Open official source

Kancheepuram

Source: Kancheepuram - Agriculture and related services

Source date: 30.09.2022

Coverage: Selected scheme descriptions

The district agriculture page describes subsidised seeds and fertilisers, crop technology extension, PMFBY for notified crops, micro-irrigation promotion and collective farming for small and marginal farmers. It links an Important Schemes or Programmes PDF and provides agriculture contacts. These functions describe the department service; the webpage extract does not supply every current subsidy ceiling or deadline. Ask the district or block Agriculture Extension Centre for the relevant year and component guidelines.

Open official source

Kanyakumari

Source: Kanyakumari - Agriculture and related services

Source date: Not displayed in inspected extract

Coverage: Selected scheme descriptions

The agriculture page lists NADP, ATMA, NFSM pulses, Coconut Development Board programmes, SMSP paddy, PMKSY micro irrigation, PMFBY and Soil Health Card. State activities include TANSEDA seed multiplication, collective farming, Food Grain Mission and quality control. It describes foundation/certified paddy seed distribution through extension centres and quality coconut seedlings. The inspected extract did not show a clear full source-update date; no current deadline or personal eligibility should be inferred.

Open official source

Karur

Source: Karur - Agriculture and related services

Source date: 23.09.2020

Coverage: Selected scheme descriptions

The horticulture page lists MIDH/Integrated Horticulture Development, NADP, PMKSY micro irrigation and other horticulture interventions. It describes seedlings and planting materials, protected cultivation, pandal structures, packhouses and onion storage. Its PMKSY section states 100% assistance for small/marginal farmers and 75% for larger farmers, with support up to 5 hectares. The page is dated 2020; figures are retained as historical reference and should not be assumed to be the currently approved component cost or allocation.

Open official source

Krishnagiri

Source: Krishnagiri - Agriculture and related services

Source date: 05.10.2026

Coverage: Selected scheme descriptions

The agriculture page links PM-KISAN, PMFBY and Soil Health Card information. It describes System of Rice Intensification, machine planting of paddy and Sustainable Sugarcane Initiative activities. Several implementation examples are explicitly from 2016-17 and 2017-18, even though the page has a recent update date. A recent page update does not convert those historical figures into current subsidy rules. Obtain the latest season-specific notice and eligibility requirements from the agriculture office.

Open official source

Madurai

Source: Madurai - Agriculture and related services

Source date: 13.07.2018

Coverage: Selected scheme descriptions

The department page describes Soil Health Card activities, PMFBY, collective farming, sustainable dryland agriculture, NMSA rainfed development, NFSM pulses, PMKSY micro irrigation and ATMA extension activities. It lists agriculture extension centres and testing and training facilities. NFSM support includes subsidised agricultural inputs and demonstrations. The page is dated 2018, so current rates, targets, insurers and deadlines cannot be inferred from this summary.

Open official source

Mayiladuthurai

Source: Mayiladuthurai - Agriculture and related services

Source date: 28.07.2026

Coverage: Selected scheme descriptions

The district programme list includes PMKSY micro irrigation, PMFBY, sustainable dryland agriculture, collective farming, NMSA, NADP, oilseeds/oil palm programmes, NFSM, Coconut Development Board support, SMSP and ATMA. Special Kuruvai and Samba packages are mentioned. The page provides district agriculture contact information. Mention of a seasonal package is not proof that enrolment is open; obtain the relevant year, crop, village and season notification.

Open official source

Nagapattinam

Source: Nagapattinam - Agriculture and related services

Source date: 17.04.2024

Coverage: Selected scheme descriptions

The horticulture page describes PMKSY Per Drop More Crop, quality planting-material distribution, protected cultivation and NADP horticulture development. It identifies area expansion, high-density planting and micro-irrigation technologies as department interventions. Its micro-irrigation section states 100% support for small/marginal farmers and 75% for other farmers. The page is dated 2024 and includes district background information; confirm current limits and notified components instead of applying these figures automatically.

Open official source

Namakkal

Source: Namakkal - Agriculture and related services

Source date: 10.07.2018

Coverage: Selected scheme descriptions

The district page lists NADP, oilseeds/oil palm programmes, NFSM, NMSA integrated farming, Coconut Development Board support, SMSP certified-seed distribution, PKVY organic farming and PMKSY. State programmes include Tamil Nadu Cotton Cultivation Mission, sustainable dryland agriculture, collective farming/FPOs and TANSEDA seed multiplication. The page is dated 2018. Listed programme names provide historical coverage, not current allocations or an open enrolment window.

Open official source

Nilgiris

Source: Nilgiris - Agriculture and related services

Source date: 09.01.2021

Coverage: Selected scheme descriptions

The horticulture page lists MIDH, PMKSY micro irrigation, Supplementary Water Management Activities, PMFBY, collective farming, Special Area Development Programme, NADP and Integrated Horticulture Development Scheme. It describes protected cultivation, planting materials, organic-farming interventions, tea-clone support and farmer groups. Insurance crop/village descriptions and group statistics include older years such as 2020-21. Confirm the current notified crop, village and season rather than treating those historic listings as a present entitlement.

Open official source

Perambalur

Source: Perambalur - Agriculture and related services

Source date: Not displayed in inspected extract

Coverage: Selected scheme descriptions

The Agriculture Department Schemes page lists NFSM maize, oilseeds, pulses, cotton and oil palm; sustainable dryland development; Food Grain Mission; green-cover development; and Seed Village Programme. Its tables show 2021-22 targets and include scheme guidelines, benefit, eligibility, application and document links. The maize demonstration table states Rs.6,000 per hectare and a cultivable-land eligibility range of 0.5 to 5 acres. These are dated table entries; verify current guidelines before applying.

Open official source

Pudukkottai

Source: Pudukkottai - Agriculture and related services

Source date: 11.05.2026

Coverage: Selected scheme descriptions

The agriculture page lists PMKSY Per Drop More Crop and sustainable dryland agriculture components. Its PMKSY table states 100% subsidy for small/marginal farmers and 75% for others; assistance limits are 2 hectares and 5 hectares respectively. It describes land documents in the beneficiary name or a registered seven-year lease. The same table contains a 2018-19 target, despite a 2026 webpage update. Preserve that distinction: do not claim these are the current approved limits without a current notification.

Open official source

Ramanathapuram

Source: Ramanathapuram - Agriculture and related services

Source date: 02.07.2018

Coverage: Services or document links; limited scheme details

The agriculture department page provides the district cropping pattern and agriculture-office organisation. It describes paddy in irrigated and rainfed conditions, millets, pulses, cotton and relevant seasonal sowing practices. Its crop statistics refer to 2016-17 and the page is dated 2018. The inspected page does not provide a verified component-wise subsidy catalogue. Use this entry for department background; amounts, eligibility and scheme application deadlines must be obtained from current official notifications.

Open official source

Ranipet

Source: Ranipet - Agriculture and related services

Source date: 13.04.2022

Coverage: Selected scheme descriptions

The department page describes Seed Village support, paddy productivity activities, machine transplanting, farmer training and soil/seed services. The Seed Village section mentions certified seeds at 50% subsidised cost. A production section is explicitly labelled 2017-18, although the webpage update is from 2022. The record is historical; current prices, crop components and farmer eligibility require verification. The district office and Agriculture Extension Centres are the appropriate sources for updated notifications.

Open official source

Salem

Source: Salem - Agriculture and related services

Source date: Oct 02, 2026

Coverage: Selected scheme descriptions

The district agriculture page lists integrated farming under NMSA, wasteland and sustainable dryland development, collective farming, watershed activities, micro irrigation, soil-health improvement, green manuring, Sustainable Sugarcane Initiative, organic farming, INM and IPM. It links separate Agriculture, Horticulture, Agricultural Engineering, Marketing and Seed Certification documents. The page does not establish current benefit amounts for every programme. Use the linked department material or district office for the particular component and year.

Open official source

Sivaganga

Source: Sivaganga - Agriculture and related services

Source date: 21.08.2026

Coverage: Selected scheme descriptions

The TAHDCO page lists Mannin Magal Thittam and Fast Track Power Supply among agriculture-related support. The Mannin Magal row describes SC/ST eligibility, age 18-55 and annual family income up to Rs.3 lakh, with assistance of 50% of project cost or Rs.5 lakh, whichever is lower; land must not be sold for ten years. The fast-track electricity row specifies ST eligibility, owned land with a well/borewell and an application to TNPDCL, with 90% government support and 10% contribution. Confirm the complete current beneficiary-category rules directly with TAHDCO.

Open official source

Tenkasi

Source: Tenkasi - Agriculture and related services

Source date: Not displayed in inspected extract

Coverage: Services or document links; limited scheme details

The agriculture page describes district and block technical wings and allocation and monitoring of state/central programme targets. It identifies the block Assistant Director of Agriculture as an implementing officer and links an Agriculture Micro Irrigation Subsidy Form. It gives crop and season background. The inspected extract does not supply a complete current subsidy-rate table or deadline. Obtain the applicable component notification from the block agriculture office; a linked form alone does not prove current eligibility.

Open official source

Thanjavur

Source: Thanjavur - Agriculture and related services

Source date: 21.05.2026

Coverage: Selected scheme descriptions

The programme list includes PMKSY, PMFBY, dryland development, collective farming, NMSA, NADP, oilseeds/oil palm programmes, NFSM, Coconut Development Board support, SMSP and ATMA. Special Kuruvai and Samba packages are also listed. It describes TN-IAMWARM and water-saving technologies. The page provides agriculture-office contacts. Confirm current season, crop and village coverage and the package closing date rather than assuming a programme mention means an application window is open.

Open official source

Theni

Source: Theni - Agriculture and related services

Source date: 01.10.2020

Coverage: Services or document links; limited scheme details

The department page links separate Agriculture, Agricultural Marketing, Horticulture and Agricultural Engineering PDFs, but does not display a complete subsidy table in its main text. This is a department-document directory dated October 2020, not a current component-wise scheme catalogue. The linked official departmental documents must be consulted for benefit amounts, farmer eligibility and application conditions.

Open official source

Source: Theni - PMFBY notice

Source date: 2026-07-07 (notice publication)

Coverage: Notice listing; full PDF rules not extracted

The Theni district Tamil webpage publishes a PMFBY crop-insurance notice dated 7 July 2026 and links a 47 KB official notice PDF. The webpage listing does not reproduce its full notified-crop list, premium, farmer eligibility or enrolment deadline. Those facts require inspection of the linked PDF; they must not be invented from the notice title. Publication in July is not proof the application window remains open on a later date.

Open official source

Thoothukudi

Source: Thoothukudi - Agriculture and related services

Source date: 09.10.2026

Coverage: Selected scheme descriptions

The agriculture page describes collective farming for small and marginal farmers, PMFBY, Mission on Sustainable Dryland Agriculture and NMSA integrated farming. It mentions farmer groups, machinery and credit/market access. Several programme examples are from 2016-17 and 2017-18. Dryland support includes crop-input assistance and cluster-level interventions. These historical descriptions do not establish current cluster selection, subsidy ceilings or insurance enrolment deadlines.

Open official source

Tiruchirappalli

Source: Tiruchirappalli - Agriculture and related services

Source date: Not displayed in inspected extract

Coverage: Selected scheme descriptions

The district department page lists NADP, PMKSY, collective farming, Seed Village Scheme, oilseeds/oil palm programmes, NFSM, Tamil Nadu Cotton Cultivation Mission, NMSA and Soil Health Card Mission. It describes soil-health interventions, green manuring, INM and IPM, alongside advice and quality input services. The inspected extract did not show a clear update date. The programme list does not establish individual eligibility, monetary benefits or deadlines.

Open official source

Tirunelveli

Source: Tirunelveli - Agriculture and related services

Source date: 14.03.2026

Coverage: Selected scheme descriptions

The Agriculture and Farmers Welfare page identifies integrated farming, wasteland and watershed development, micro irrigation, organic farming, bio-fertiliser/green-manuring activities, INM and IPM as programme priorities. It provides technical-wing responsibilities and district agriculture contact information. Some background references mention areas associated with older district boundaries. Use the record as a departmental summary; verify the current district/block jurisdiction and specific component notification before making eligibility claims.

Open official source

Tirupathur

Source: Tirupathur - Agriculture and related services

Source date: 23.07.2020

Coverage: Selected scheme descriptions

The agriculture page describes collective farming, PMKSY micro irrigation, PMFBY, Mission Soil Health Card and PKVY organic-farming support. It mentions training for farmers and discussion-group conveners, and technology extension. The micro-irrigation section states 100% for small/marginal farmers and 75% for others. The page is dated 2020 and includes older programme history; current subsidy limits and eligibility must be confirmed with the block agriculture office.

Open official source

Tiruppur

Source: Tiruppur - Agriculture and related services

Source date: 17.10.2022

Coverage: Selected scheme descriptions

The district Co-operation page describes agricultural credit through Primary Agricultural Cooperative Credit Societies, including crop loans and loans for machinery, micro irrigation and milch animals. It says cooperative services include agricultural-input distribution, storage and access to low-cost crop credit; timely repayment conditions affect interest support. It lists 182 primary agricultural cooperative credit societies in the dated page. This is a cooperative-service summary, not a universal cash-subsidy guarantee or a complete district agriculture scheme catalogue.

Open official source

Tiruvallur

Source: Micro irrigation and farmer documents - Tiruvallur

Source date: 2022-11-23 (page last updated)

Coverage: Selected scheme descriptions

The Tiruvallur Horticulture page describes micro irrigation under Pradhan Mantri Krishi Sinchayee Yojana (PMKSY). It lists assistance of 100% for small and marginal farmers and 75% for bigger farmers, with financial assistance up to 5 hectares. It states that beneficiaries can receive assistance to renew laterals after seven years. Trench-cutting assistance is listed as Rs.3,000 per hectare, limited to 2 hectares per beneficiary.

For horticulture applications, the page lists current Chitta, Adangal, field map, passport photograph, ration card copy, Aadhaar copy and nationalised bank passbook copy. A small/marginal farmer certificate is required where applicable to obtain 100% micro-irrigation support. Organic-farming assistance requires an organic certificate.

The page says landowners are eligible; leases for project-based components should be at least 10 years. Assured irrigation is necessary for components that require water. These are district-page descriptions, not confirmation of an open application window in 2026.

Open official source

Source: Agriculture scheme names - Tiruvallur

Source date: 2021-07-03 (page last updated)

Coverage: Selected scheme descriptions

The Tiruvallur Agriculture Department page lists these programmes for its farming community: Food Grain Mission; Revamped PMFBY; PMKSY; Supplementary Water Management Activities; Collective Farming; Integrated Farming System; Tamil Nadu Mission on Dry Land Development; National Agricultural Development Programme; National Food Security Mission; and PM-KISAN.

This page establishes that these names are listed by the district department. It does not establish current benefit amounts, deadlines or individual eligibility for each scheme. The page's displayed update date is 3 July 2021, so the list should be treated as historical background for retrieval practice. Follow the page's linked department PDF or the relevant current scheme notification for more detailed rules.

Open official source

Tiruvannamalai

Source: Tiruvannamalai - Agriculture and related services

Source date: Not displayed in inspected extract

Coverage: Selected scheme descriptions

The horticulture page lists PMKSY, Supplementary Water Management Activities, NADP, Integrated Horticulture Development, National Ayush Mission, National Bamboo Mission, Rainfed Area Development, collective farming, PMFBY and TNIAMP. It describes planting materials, protected cultivation, pandal structures, packhouses and organic/INM/IPM support. The page contains historical context including 2019-20 data, and the inspected extract did not show a clear update date. Verify the particular component, budget year and beneficiary conditions before applying.

Open official source

Tiruvarur

Source: Micro irrigation and water-management notice - Tiruvarur

Source date: 2026-10-05 (notice publication)

Coverage: Selected scheme descriptions

A Tiruvarur district notice published on 5 October 2026 describes 100% micro/drip-irrigation subsidy for small and marginal farmers and 75% subsidy for other farmers. It also describes additional back-ended assistance of up to 50% for water-conveyance pipes, wells, electric motors and water-harvesting structures.

The notice directs eligible farmers to their block Assistant Director of Agriculture to register, bringing documents such as Chitta, Adangal and Aadhaar. The webpage does not provide every component's monetary ceiling, full eligibility criteria or a closing date. Its linked press release is the place to check additional conditions. The description applies to Tiruvarur and must not be treated as a statewide current entitlement.

Open official source

Vellore

Source: Vellore - Agriculture and related services

Source date: 09.01.2019

Coverage: Selected scheme descriptions

The agriculture page describes collective farming, PMKSY, PMFBY, Mission Soil Health Card and PKVY organic farming. It identifies soil/water testing and extension/training activities. Its PMKSY section states 100% support for small/marginal farmers and 75% for other farmers. The page is dated 2019 and includes older jurisdiction and programme descriptions. Those rates are historical source entries; current area limits, notified crops and application dates require a current official notification.

Open official source

Viluppuram

Source: Viluppuram - Agriculture and related services

Source date: 02.12.2019

Coverage: Selected scheme descriptions

The agriculture page lists NFSM crop groups, NMSA integrated farming, Coconut Development Board support, SMSP certified seeds, Tamil Nadu Cotton Cultivation Mission, sustainable dryland agriculture, collective farming and TANSEDA seed multiplication. It describes micro irrigation, soil-health cards, bio-fertilisers, SSI, INM and IPM. The page is dated 2019. Treat its district profile and programme figures as historical; check the current district jurisdiction, season and component allocation.

Open official source

Virudhunagar

Source: Virudhunagar - Agriculture and related services

Source date: 2018-08-30

Coverage: Selected scheme descriptions

The horticulture page describes PMKSY micro irrigation, NADP horticulture interventions and PMFBY crop insurance. It states 100% micro-irrigation subsidy for small/marginal farmers and 75% for others, and lists area-expansion, onion, protected-cultivation and planting-material activities. The source is dated August 2018 and names an insurer in that historical context. Do not treat the historical insurer, benefit pattern or village coverage as a current-season insurance notification.

Open official source
